6.	Brief Description	Trees contribute to their environment by providing oxygen, improving air quality, climate amelioration, conserving water, preserving soil, and supporting wildlife. During the process of photosynthesis, trees take in carbon dioxide and produce the oxygen we breathe. To nurture the nature and to minimize effect of global warming, we must spread awareness about tree plantation and conservation. By keeping this in mind, our 'Extension Activity Cell' volunteers conducted the tree plantation program in Bhagwan Aadinath College, Maharra, Lalitpur campus; all the faculty members including teaching and nonteaching, students actively participated in the tree plantation program.
